

Mundelein High School is proud to announce our 4th annual Summer STEAM Camp!

In collaboration with

Mundelein High School

These exciting camps give **incoming 1st - 9th graders** the opportunity to engage in hands-on STEAM activities! Campers may be able to:

- Design & build a robot
- Explore 3D printing
- Create candy chemistry
- Try fingerprinting and DNA analysis
- Develop energy sources
- Scope our Scanning Electron Microscope
- Build & launch a solid-fuel rocket
- Write and direct a film
- Study art around the world
- Learn hand and machine sewing
- Experiment with water samples, plastics, and circuits
- Construct mazes, functional model cars, boomilevers, and gliders
- Make Rube Goldberg machines and roller coasters
- Discover coding
- Solve a Rubik's Cube and more logic games

REGISTER ONLINE STARTING April 1st AT
