

MUSTANG CHARCOAL
PANTONE: 447
PROCESS: C0, M0, Y0, K90
DIGITAL: R65, G64, B66
WEB: #414042

The Mundelein seal should be surrounded by a field of clearspace to isolate them from competing graphic elements and ensure their visibility and impact. The clearspace minimum is equal to the X shown for each mark. Please note that clearspace is not the same as whitespace.

The Mundelein seal can appear in a variety of sizes to accommodate a range of applications, but it should not be sized so small that it becomes illegible. Please follow the recommended minimum sizes at the right.

Incorrect use of the Mundelein seal compromises its integrity and effectiveness. Care should be taken to ensure correct and consistent mark use in every application. Some common misuses of the marks are shown here.

Although these examples do not represent every misuse, they do indicate areas to double-check. To ensure correct reproduction, please use the approved electronic artwork and follow the guidelines within this document.

SQUISH

Never alter the proportions of any of the marks.

SHADOWS

Do not add drop shadows or other filters to logos.

EMBOSS

Do not add embossing or other filters to logos.

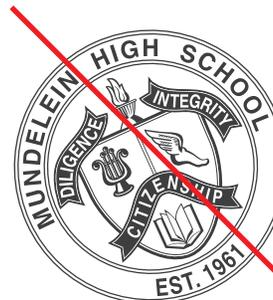

COLOR

Never alter the approved color designs.

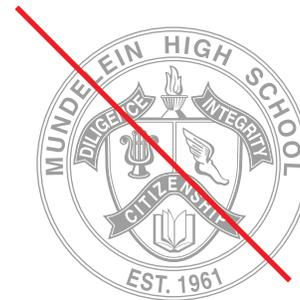

REVERSE

Do not reverse the logos for dark colors. Use the correct version.

TILT

Avoid tilting the logos.

SCREEN

Do not screen the logos or alter the color percentages.

CROP

Do not crop or cut off parts of the logos

The Mundelein marks and logotypes should be surrounded by a field of clearspace to isolate them from competing graphic elements and ensure their visibility and impact. The clearspace minimum is equal to the X shown for each mark. Please note that clearspace is not the same as whitespace.

The Mundelein Logos can appear in a variety of sizes to accommodate a range of applications, but it should not be sized so small that it becomes illegible. Please follow the recommended minimum sizes at the right.

Incorrect use of the Mundelein Mustangs marks compromises its integrity and effectiveness. Care should be taken to ensure correct and consistent mark use in every application. Some common misuses of the marks are shown here.

Although these examples do not represent every misuse, they do indicate areas to double-check. To ensure correct reproduction, please use the approved electronic artwork and follow the guidelines within this document.

The examples shown go for all approved Mundelein marks.

SQUISH

Never alter the proportions of any of the marks.

SHADOWS

Do not add drop shadows or other filters to logos.

EMBOSS

Do not add embossing or other filters to logos.

COLOR

Never alter the approved color designs.

REVERSE

Do not reverse the logos for dark colors. Use the correct version.

DARK BACK

Use the appropriate logos for the background it is being placed.

TILT

Avoid tilting the logos.

SCREEN

Do not screen the logos or alter the color percentages.

CROP

Do not crop or cut off parts of the logos

Montserrat and Droid are approved fonts for all publications and documents. These are the preferred fonts but if needed others may be used within documents but not to alter logos or branded marks.

Montserrat may be used in Headlines, art fonts and body copy as needed.

Droid may be used in body copy and section headlines as needed.
